THE SWEDISH GLASS INDUSTRY

Since 1742, the province of Småland has been the heart of the Swedish glass industry. Located at the edge of Sweden's southernmost wilderness, fifteen glassworks, including Orrefors (1898) and Kosta Boda (1742), take advantage of the abundant supply of wood to create art glass that is famous around the world.

SEA GLASBRUK

A new kid on the block founded in 1956, they excel in combining dazzling color, functional form, Swedish design and quality.
